

BWT Woda-Pure

THE NEW BWT WODA-PURE TURNS ORDINARY TAP WATER INTO HIGH QUALITY DRINKING WATER FOR HOMES.

*High quality,
safe and tasty
water right
from your tap!*

The optimal solution for undersink installation:

- Pure water – free of chlorine and other unwanted substances of odour and taste
- Very hygienic – no particles, sand, rust
- Reliable removal of organic compounds
- Retention of valuable minerals

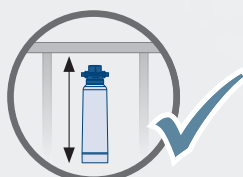

Quality characteristics

As Europe's number 1 in water treatment BWT stands for highest quality and hygiene standards. The production facilities in Austria and Germany are ISO 9001:2008 and ISO 14001:2004 certified.

The hygiene regulations comply with the HACCP directive. In addition, the production is regularly checked by leading and independent certification institutions (TÜV SÜD, NSF).
